Drilling in the Mexican Hat area is a unique situation because of its remote area. IT is difficult to get surveyor's.

In regards to Nordeen #11 and #12, the surveyor has surveyed these proposed well locations. He is in the process of drawing up the plats at this time.

I am submitting the application without the plats and I hope that I may get verbal approval to go ahead and drill these wells. The plats will follow as soon as possible.

I will call you sometime next week in regards to this situation.

Re: Well No. Nordeen #11; Well No. Nordeen #12; Goodridge #2;
Nordeen #6; Goodridge #1-79

In response to your letters dated February 26, 1980; postmarked March 17; Sundry Notices and Reports on Wells have now been filed for each of the above wells. A monthly report will be filed for each month in the future.

I plan to drill each of the above wells in 1980. I realize considerable time has passed since the application was filed. In the past year, I have been busy transferring assignments, titles, etc. from Williams Ranches, Inc. to San Juan Minerals Exploration Company. This has involved a lot of paper work. After San Juan Minerals Exploration Company has obtained the necessary state-wide bond and insurance things should proceed more smoothly.

I realize we have tested your patience. I hope to perform better in the future.

Thank you.

Sincerely yours,

Jack Williams
